

COMMON CONSTRUCTION WAGE COMMITTEE CONCORD COMMUNITY SCHOOLS CONSTRUCTION PROJECTS

We the undersigned members of the Common Construction Wage Committee pursuant to chapter 5-16-7 of the Indiana Code, do hereby fix and determine the common construction wage rates for the Construction Projects consisting of construction of a new junior high school, including extension of water and sewer services, renovations and improvements to all four elementary schools (East, West, South, and OxBow), and renovations and improvements to the existing junior high school into an intermediate school to be in the classifications, scales, and amounts set forth on the attached Exhibit A. The wage rates established by the committee are the minimum that may be paid by any contractor or subcontractor working these construction projects in accordance with the provisions of chapter 5-16-7 of the Indiana Code.

Apprenticeship Programs:

The Wage Committee determines that the common practice in the county is for contractors to participate in bona fide apprenticeship programs registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training and that the rate of pay for the classifications of labor that participate in such programs is based in part on a percentage of the journeyman's rate (skilled rate herein) depending on the individual's progress in the program. Workers engaged in such an apprenticeship program will be permitted to work at less than the predetermined rate set out above for the work they perform. Such apprentices must be paid at not less than the rate specified in the registered program for the apprentice's level of progress, expressed as a percentage of the journeymen hourly rate which is the skilled hourly rate in this wage scale.

Any worker who is not registered or otherwise employed in a bona fide apprenticeship program registered with the U.S. Department of Labor, Bureau of Apprenticeship and Training and has twelve or more months of cumulative experience in the construction trades shall be paid at the skilled wage rate on this wage determination for the classification of work actually performed by the worker regardless of how the employer classifies such a worker. Disputes regarding the appropriate classification of workers and the amounts said workers should be paid may be submitted to the Indiana Department of Labor for investigation.
